

CONSULTING

Perfect Practice Consulting, is the journey that will improve your practice's data integration efficiency through careful analysis, strategic planning, effective implementation and annual review & updates.

“I recently spent 2 days with a Cardiology Group, reviewing how their provider work-flows and clinical instruments would integrate with an existing client utilizing Allscripts Enterprise EHR. Our goal was to ensure they were taken care of every step of the way; that is Perfect Practice...”

JILL OVERLY

Application and Interface Analyst
EHR Integration Services

We will conduct a comprehensive data integration assessment of your organization focused on increased practice efficiency, reduced workflow fatigue, stress and frustration among physicians and staff. All of this, while you continue to improve quality of care and patient satisfaction - *it's all part of what we call Perfect Practice.*

DISCOVERY: Work With The People You Know

During Discovery we collaborate with your team in your environment to *watch, listen and learn* about how you and your team practice medicine and manage healthcare every day. Then, we begin working with your team to identify ways to improve workflow and efficiency within your practice's information systems. A comprehensive report is delivered to help you understand where improvements can be made and how to implement changes.

PLANNING: Plan for the Perfect Practice

The outcome of our Discovery process is a comprehensive Strategic Plan developed specifically for your practice based on our observations and interactions with your practitioners and staff. This plan for implementation and management of changes and improvements to your workflow, creating a Perfect Practice moving forward.

IMPLEMENTATION: Put Your Plan into Action

When it's time to act, EHR Integration Services is ready. From design to delivery, we provide all of the services required to implement your Strategic Data Integration Plan and train your staff. We will implement for you, or provide consulting support to your team. Either way *EHR is here to help you every step of the way, your way.*

SUCCESSFULLY COMPLETED MORE THAN 40

large and small data extraction and conversion project

35 YRS. EXPERIENCE

extracting more than (35) data modules

14 YRS. EXPERIENCE

*with more than (14)
leading EHR/PM vendors*

We develop data strategies that morph with rapidly changing technology and the diverse clinical, operational and cultural aspects of each medical practice.

SUPPORT: We're Always There For You

Support doesn't stop at go-live, we remain available for as long as you need us. We pride ourselves in making each problem easier to resolve. We usually have the answer for you right away and if we don't, we won't stop until your problem is solved.

That is... Perfect Practice.

ANNUAL CHECK-UP:

Insight for Improvement and Change

We know that the best laid plans and implementations are subject to change over the course of a year. Once we've done a discovery for you we have a "base line" from which we can continue to monitor and help you improve. In the spirit of keeping your environment healthy, EHR is happy to offer an annual check-up service to assess what's changed since the plan's original implementation and to offer any recommended course of action.

What It Means To You

- » **Optimize Your Practice**— Our first guiding principle is practice optimization...integrating your existing healthcare information infrastructure to enhance clinical and operational workflow.
- » **Increase Your ROI**— We're always evaluating a return on investment when presenting optimization strategies. Workflow enhancement results in substantial time- and dollar- savings.
- » **Reduce Office Stress**— It's easy to overlook the stresses that data inefficiencies place on the entire practice. Long hours, decreased productivity, sick days and decreased satisfaction – turnover. A natural extension of optimization is reduced stress and in-creased satisfaction.
- » **Watch Your Back**— During the entire data integration evaluation and change process our expert consultants are focused on delighting customers. More importantly, we stand by our work and respond quickly and effectively if issues arise down the road.

We deliver results that save time, save money and improve the care you deliver to your patients. We always strive for Perfect Practice! Welcome back to calm...
